The Engineering Scholarship Office deals with all Undergraduate Scholarships offered by the Faculty. Scholarship and employment opportunities are advertised on the notice board outside room 231. Any application forms can be collected from this notice board. Regular email updates are also sent to your extro account (university email) informing you of any opportunities which might be of interest. If the advertised opportunity requires application the application form will be attached to the email in PDF format.

I always look forward to meeting students and it is a good idea to come and have a chat if there is a particular opportunity you are interested in or have a question about. You will notice that my office door is always closed - this is for security reasons and it does not mean I am not in the office. You are welcome to visit me at any time.

I wish you all the best with your studies and look forward to meeting you.
