

## Keg Tapping 1001

Last Updated Tuesday, 02 March 2010

Drinking beer at University is not compulsory - if you don't enjoy the amber ale, don't despair - we have plenty of girls drinks for you to enjoy.

For those of you who do enjoy an icy cold bevvy you will quickly learn that the magic of the bar, with its golden flowing tap beer, can be brought to our very own engineering lawns.

Although the cellar man is in charge of all things beer, this picture shows you no detail at all, but gives the general layout of our keg system.

Incase the cellar man passes out, combine your engineering 'knack' with this diagram to ensure the constant flow of sweet amber ale.
